March 2015

The first official day of spring saw snowfall in the greater DC Metro Area, and if you're like me your thoughts have to be turning towards the beautiful weather we hopefully have right around the corner. As you've no doubt spent most of the past few months shoveling out from under heavy white snow, we want you to know there are still plenty of ways to "go green" in March. Our first article takes a look at the meaningful difference that you can make via transitioning to more eco-friendly choices in your everyday life.

In keeping with our theme of focusing on the green, our second article examines five easy ways you can sure up \$5,000 from your cash flow and keep more of your earnings in your pocket.

As Spring turns to Summer, many of your children and grandchildren will be experiencing College graduations and beginning the process of finding a job. To help with this process, please take a moment to read the article that analyzes some surprising traits that future employers look for in successful employee candidates.

We know that the warmer months find many of our clients getting back to the work of tending their gardens. Like a well-diversified portfolio, a fruitful garden requires time, patience and careful monitoring. Our last article shares some useful tips for helping cultivate your green thumb, along with a bounty of delicious vegetables!

Best Regards,

The Acorn Team
