October 2015

October may make you think of cool weather, football games and pumpkins – or maybe ghosts and goblins and bumps in the night (and we’re not talking about bumps in the markets – those aren’t too scary, at least over the long term).

With so many important areas of our lives now online, internet security can be a scary issue. But the tips below will help you safe guard your money – and personal information. Many of us are afraid of cleaning out our garages or closets. It’s not easy to decide what to keep and what to give away. This article illuminates the behavioral biases that chain us to stuff we no longer need or use. (Some of these biases may also affect our financial decisions.)

Don’t let old man winter scare you when it comes to heating bills. Read about how to prep your home for the winter months. Finally, enjoy this list of top movies from master of suspense Alfred Hitchcock. But I don’t recommend you watch them alone!

Best Regards,

Your Acorn Team
